CERTIFICATE

It is certified that **M/S Sohten Inc. Japan** is supplying **Mt. Fuji Vanadium Mineral Water** in International as well as Japanese market. This water is 100% Natural Mineral Water and packed according to highest quality control standards, State of the art Technology, service and complies all **Halal** certification requirements. I have personally visited the Sohten Inc. plant located at the foot of Mt. Fuji and witnessed entire bottling process. Water of Mt. Fuji is mostly melted snow water of Mt. Fuji as well as rain water, which is absorbed underground after passing through various layers of Mt. Fuji lava beds. This water is obtained from a depth of 80-150 meters below the ground level. In my opinion Vanadium Water Company Pakistan is doing a marvelous job by bringing this pure healthy water to Pakistani people.
